

# Bear with us during the Grand Avenue Bridge project. It'll be worth it!

The new Grand Avenue Bridge will be a significant improvement to Glenwood Springs, and we are looking forward to its completion. For two years, we've been working with the City of Glenwood Springs and CDOT to make sure our guests can still enjoy the Pool, Lodge, Spa, and Club to the fullest while Glenwood Springs undergoes this major improvement.

## What you can anticipate:

- The current Grand Ave. Bridge will remain open to vehicular traffic until the late summer or fall of 2017.

- Pedestrian access over the Colorado River to and from downtown will not be interrupted.

- As of February 2016, our entire west parking lot was closed and dedicated to CDOT as their primary staging and construction area.

We intend to keep you fully informed of any updates or changes via our website, [hotspringspool.com](http://hotspringspool.com).

You can also go to [sh82grandavenuebridge.com](http://sh82grandavenuebridge.com) for complete information on the project.

# Here's what we're doing during the Grand Avenue Bridge project.

We've updated our parking to serve you best.

- A huge new parking lot – called Lot A – just 3 blocks to the west at 152 6th St.
- FREE shuttle service to and from Lot A to the Pool entrance.
- Two new smaller lots: Lot S on 6th St. near Laurel St. and Lot M behind the Lodge.
- Seasonally, additional parking lot attendants to assist you.

Here's what the new parking looks like.

You'll see that Lot A is just 3 blocks to the west, with FREE shuttle service to and from the Pool entrance running continuously during Pool hours.

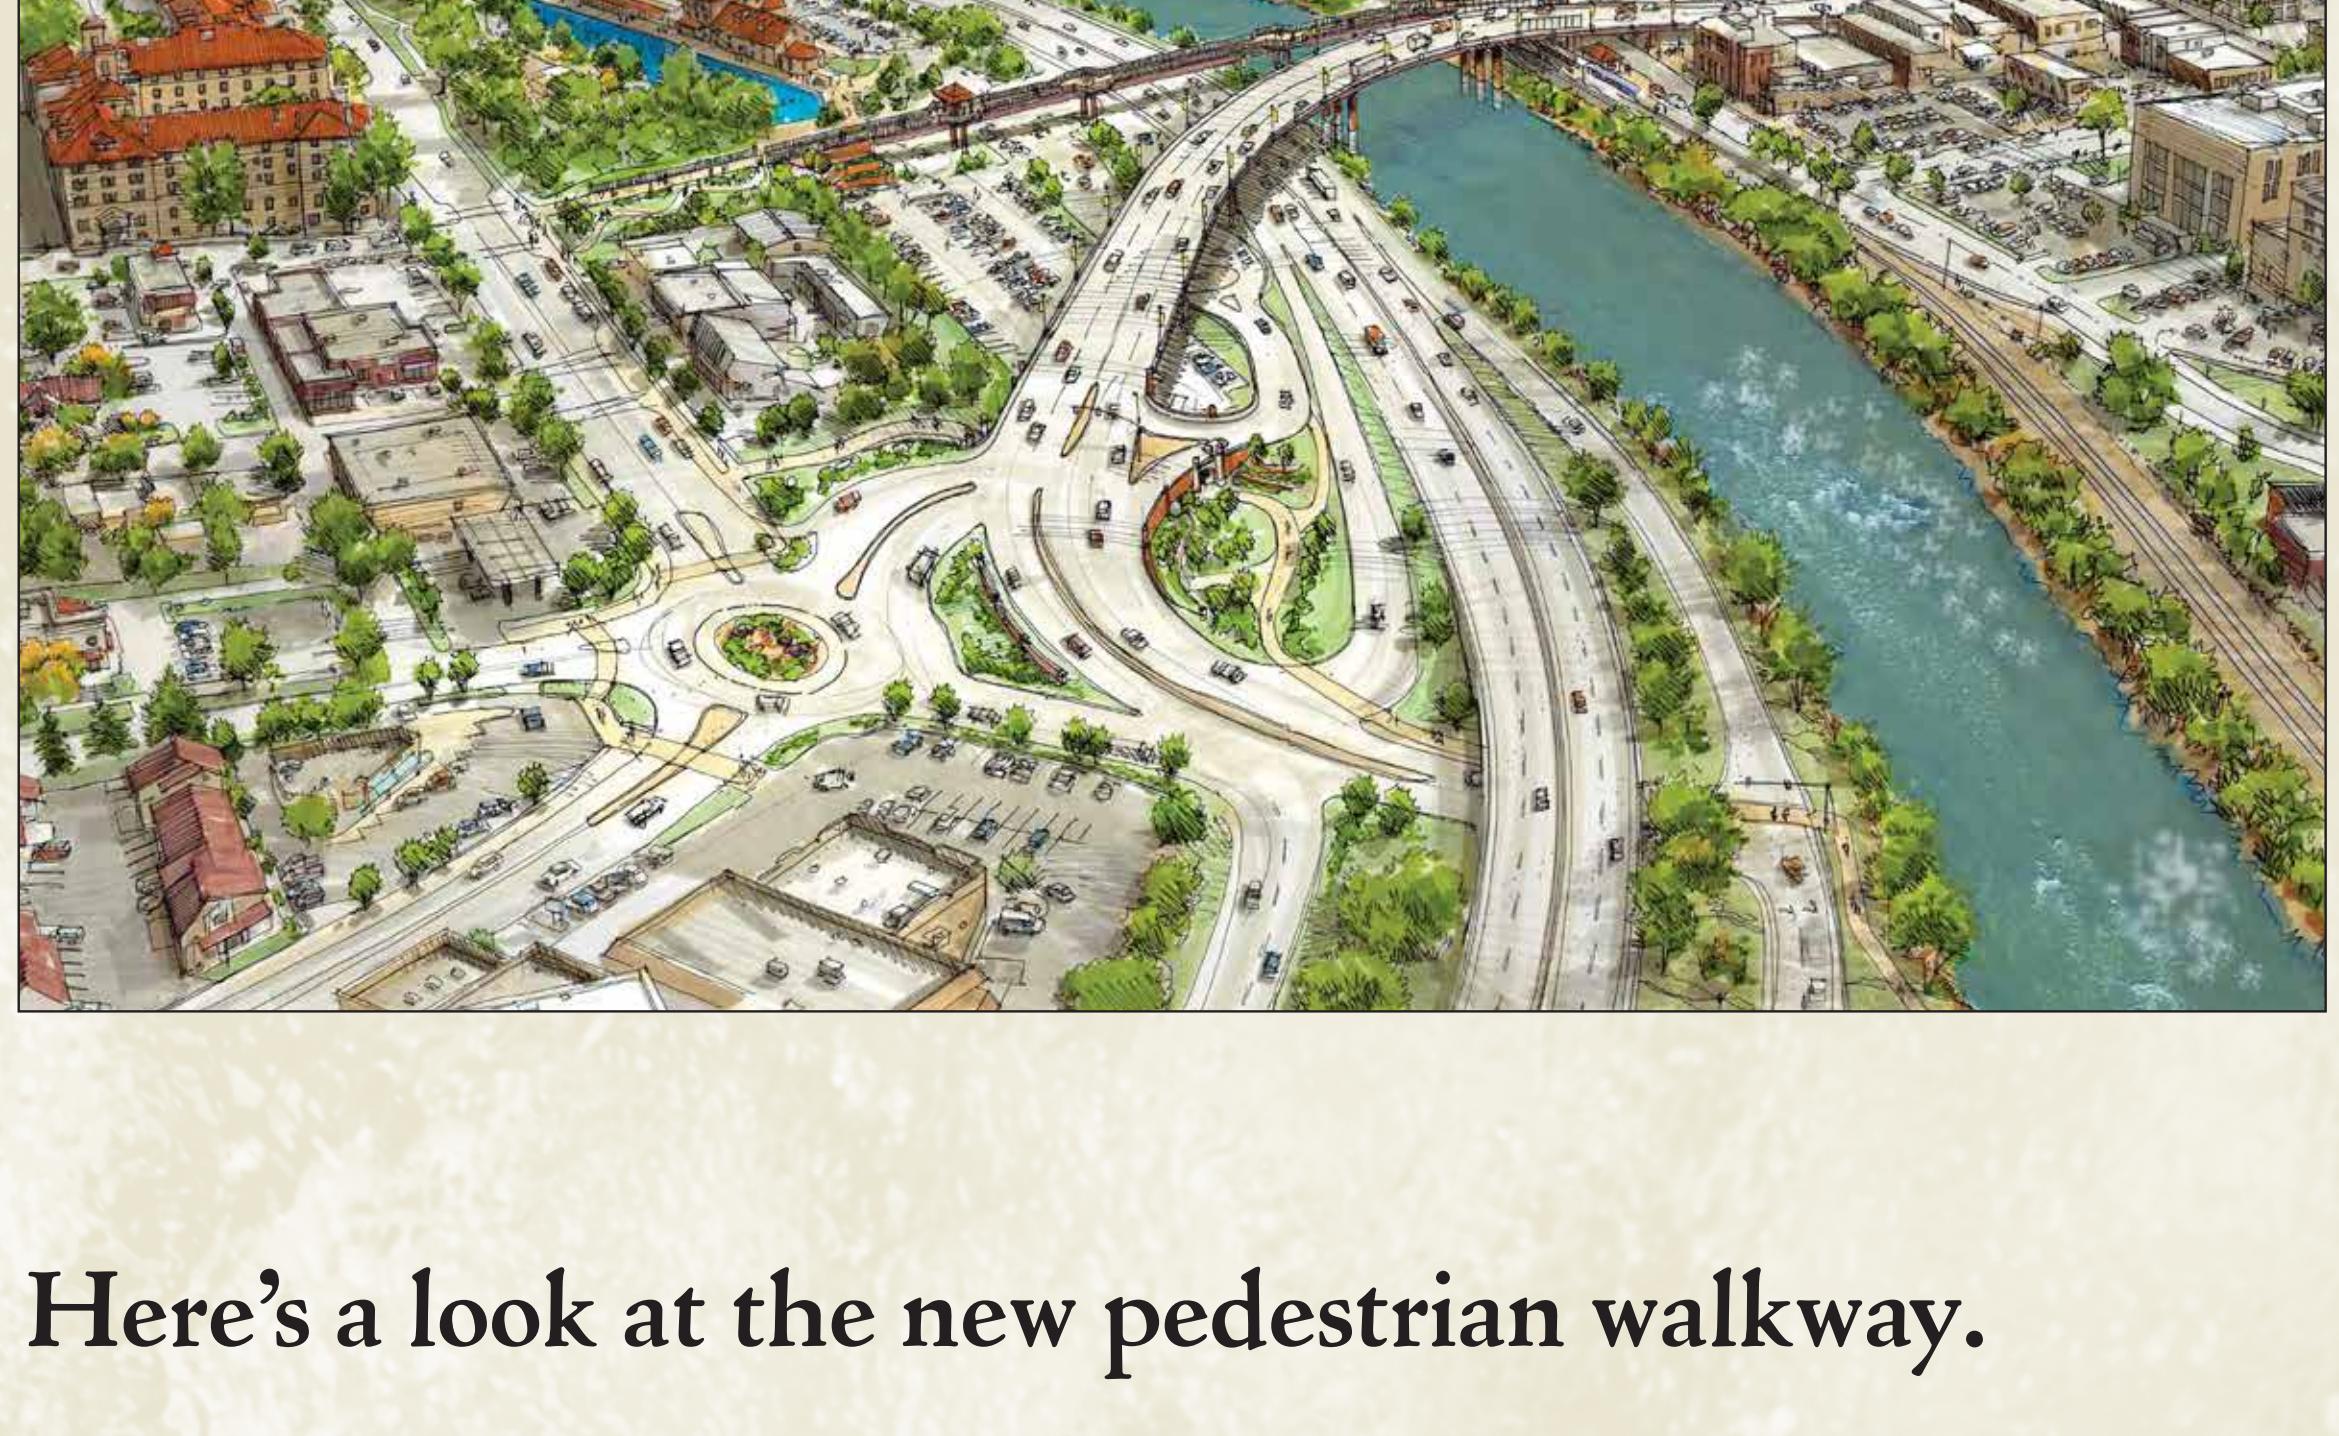

You'll also find updated parking maps and walking maps at the nearest service desk and on [hotspringspool.com](http://hotspringspool.com).

See the next panel to see what it will look like in a couple years!

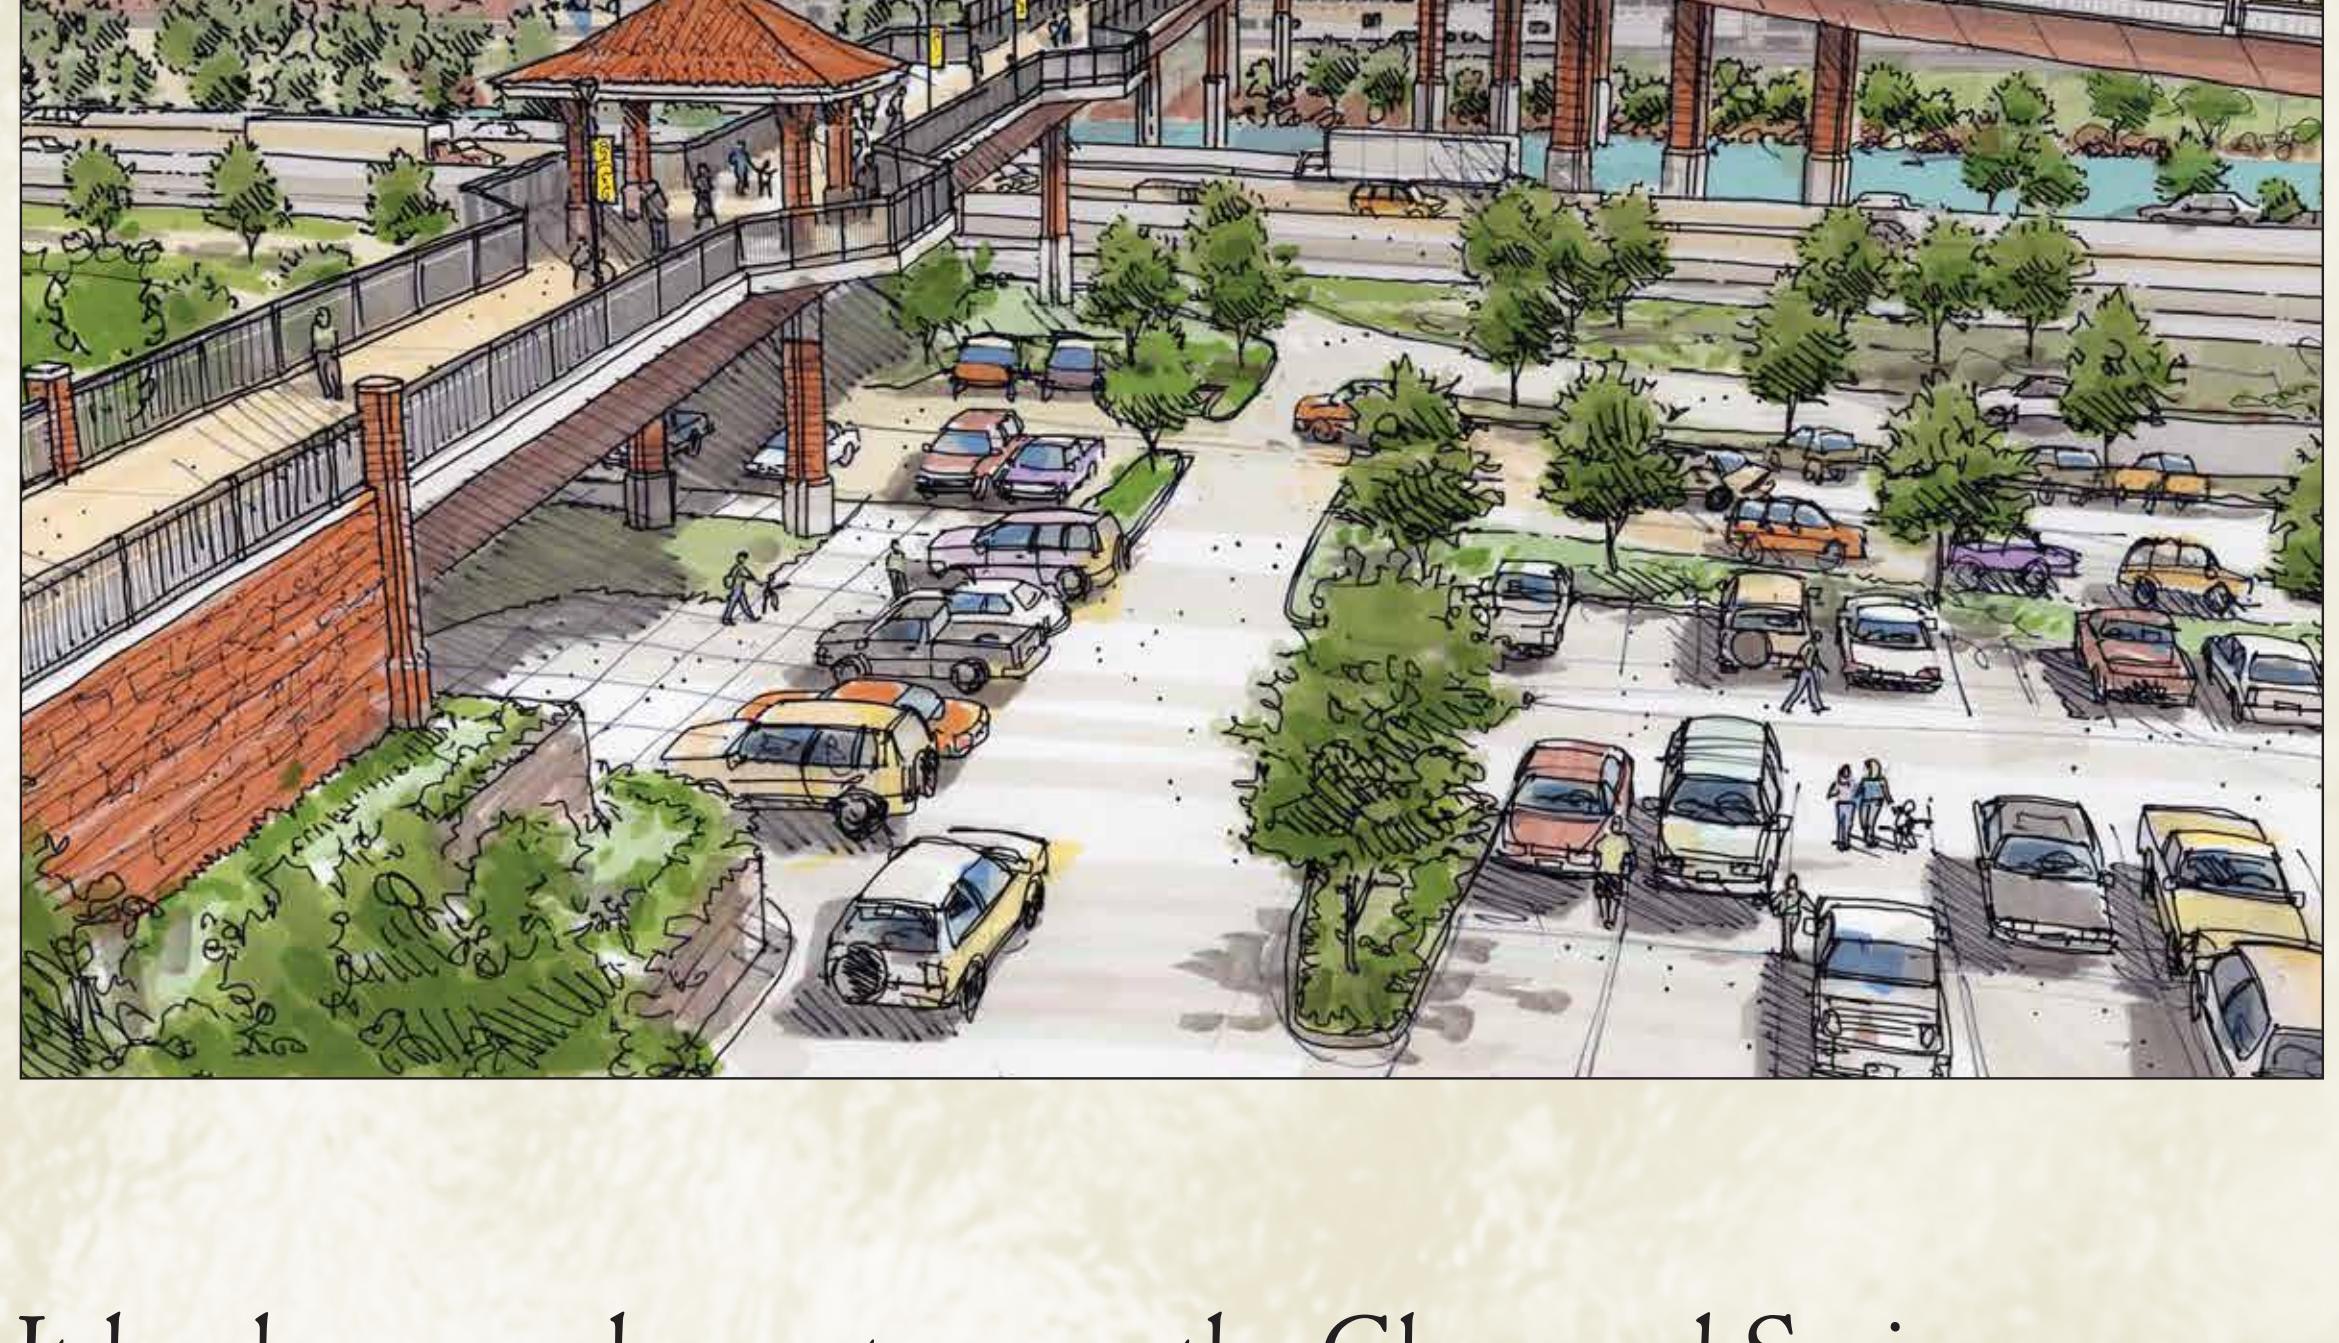

# Glenwood Springs is going to look great in 2018!

Here's what the area will look like when it's all done.

Here's a look at the new pedestrian walkway.

It has been our honor to serve the Glenwood Springs area since 1888, and we look forward to serving it for centuries to come. If there's anything else we can do to make your experience here better during the completion of this project, please let us know.

Thank you for your patience!
